EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ralph Webb on 12/11/03.

The application has been amended as follows:

Cancel claim 14.

2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the current water based well fluid or method comprising the partial esters of glycerols and polyglycerols with a C8-10 fatty acid. The prior art of GB 2283036 cited in the prior office action teaches the use of partial esters of C7-29 fatty acids with polyols, and exemplifies glycerol monooleate, which is derived from a C18 acid. GB '036 fails to teach or suggest glycerols or polyglycerols of a C8-10 fatty acid with sufficient specificity to render the current invention obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
